

Laptops of Hope: Every Child has the Right to Learn

Due to the health crisis and compulsory isolation to stop the spread of the coronavirus, hundreds of vulnerable children were sent home to continue their education online. However, low income families or foster children are not able to afford a device to keep on learning.

We ask for your donations which will be used to purchase mini-laptops that will be donated to them. Our goal is to buy 500 devices this year! Would you help us to achieve this goal?

This campaign is organized by Houston Guayaquil Sister City Association IRC (501) (1) (3), a not-for-profit organization based in Houston, Texas. TAX ID: 76-0227540
